Enrolled Nurse Transition to Practice Program

About the Program

Yea & District Memorial Hospital (YDMH) is thrilled to have been successful in obtaining funding to support one position in the next twelve months in our Enrolled Nurse Transition to Practice Program.

An ENTTP is a formalised education program offering a supportive way to gain extensive opportunities in study days, supernumerary opportunities and exposure. YDMH will work with the successful applicant and offer multiple different opportunities across YDMH's multi service.

The successful applicant will also be supported with external study opportunities and the possibility of supernumerary work in one of our partnering organisations.

The purpose of the program is to consolidate knowledge, skills, and competence, and transition new graduates to practise as safe, confident and accountable professionals.

Criteria

Must have completed Enrolled Nurse training in past 12 months.
Can be an internal or external applicant.

We are looking for an Enrolled Nurse who is interested in a multi service organisation. Somebody who is committed to learning and eager to challenge themselves for the benefit of their development.

Application Details

Please submit your resume, cover letter and two references by **5pm Monday 18th March** to Luke James at Luke.James@ydmh.org.au.

Contact Luke James, Clinical Educator, or Tabatha Delaney, Nurse Unit Manager, on 03 5736 0400 with any queries.

Successful applicant will be notified by 5pm on Friday 22nd March.

Program will commence on the 1st of May and runs for approximately 12 months in total.
